# Press Release

23 September 2014

## **Bringing Two Great Companies Together**

Kamma and Blake Industries (KBI) Is Joining Canadian Alberni Engineering Ltd (CAE)

**Port Alberni British Columbia**

Two great Port Alberni companies are joining forces to establish a growing boat building presence in the Alberni region. Kamma and Blake Industries will blend into Canadian Alberni Engineering in late October / early November of 2014.

Separately, each company has a long proud tradition in the marine industry on the West Coast of Vancouver Island. Together, we can build a bigger, efficient enterprise capable of competing with national and even international firms to build boats and ships in B.C.

Over the next few weeks, KBI and CAE will finish the transition of people, material, equipment and designs to CAE's location. CAE would like to especially recognize and thank Paul Blake for his efforts. His dedication, reputation and experience will be very important to the success and future of CAE.

**Working together for a better community, a better company and a bright future!**
